## **1. INTRODUCTION**

In terms of the Municipal Finance Management Act, No. 56 of 2003, Chapter 4 on Municipal Budgets, Subsection (16), states that the council of a municipality must for each financial year approve an annual budget for the municipality before the commencement of that financial year. According to subsection (2) of the Act concerned, in order to comply with subsection (1), the executive mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

This policy must be read, analyzed, explained, interpreted, implemented and understood against this legislative background. The budget plays a critical role in an attempt to realize diverse community needs. Central to this, the formulation of a municipality budget must take into account the government's macro-economic and fiscal policy fundamentals. In brief, the conceptualization and the operationalization of the budget must be located within the national government's policy framework.

## **2. OBJECTIVE**

The objective of the budget policy is to set out:

- The principles which the municipality will follow in preparing each medium term revenue and expenditure framework budget,
- The responsibilities of the mayor, the accounting officer, the chief financial officer and other senior managers in compiling the budget

- MFMA budget circular 99 requires that municipal budgets from 2020/21 to be prepared in line with the mSCOA classification framework. The budget should therefore be prepared across the MSCOAs segments:  
 Project - allocates the expenditure and income to a project between capital and operating activities  
 Function - Department  
 Item - Assets, Liabilities and Net assets; Expenditure; Revenue; Gains and Losses  
 Funding - which funding source is utilised for expenditure transactions  
 Regional Indicator – Beneficiaries  
 Costing – Default transactions not yet in use
