Annexure A attached has listed Key Performance Areas (KPAs). These will be evaluated on a straight line bases. These performance areas will be worth 100%. The key performance indicators have different weightings; which weightings are then converted by the adopted rating calculator into the final weightings; which final weightings are to be assessed. The achievement of 95 to 100% percent shall be regarded as 100% bonus warranting, above 80 percent to 94 percent, as average and warranting 80% of performance bonus, above 50 percent to 79 percent shall warrant 50% of the performance bonus, and below 50 percent, shall require the employer to effect remedial measures that may include incapacity or disciplinary enquiry.

The above performance thresholds shall only be effected after,

- II. An evaluation of performance in accordance with the provisions of regulation 23, and this agreement; and
- III. Approval of such evaluation by the Municipal Council as a reward for outstanding performance or effective performance.

4. EVALUATING PERFORMANCE

The evaluation of the employee's performance will form the basis for rewarding outstanding performance or correcting unacceptable performance.

The performance of the Employee in relation to his or her performance agreement must be reviewed on the following dates with the understanding that reviews in the first and third quarter may be verbal if performance is satisfactory:

Quarter	Review Period	Review to be completed by
1	July - Sep	October (informal)

2	Oct- Dec	January- February (Formal)
3	Jan- March	April (informal)
4	April- June	July- August (formal)

Most importantly, the municipality will develop a tool to measure performance on the five point rating system:

The ratings are explained as follows:

Rating	Terminology	Description
5	Outstanding Performance	Performance far exceeds the standard expected of an employee at this level. The key appraisal indicates that the employee has achieved above fully effective results against all performance criteria and indicators as specified in the PA and Performance plan and maintained this in all areas of responsibility throughout the year.
4	Performance significantly above expectations	Performance is significantly higher than the standard expected in the job. The appraisal indicates that the Employee has achieved above fully effective results against more than half of the performance criteria and indicators and fully achieved all others throughout the year.
3	Fully effective	Performance fully meets the standards expected in all areas of the job. The appraisal indicates that the Employee has fully achieved effective results against all significant performance criteria and indicators as specified in the PA and Performance Plan.
2	Performance not fully effective	Performance is below the stand required for the job in the key areas. Performance meets some of the standards expected for the job. The review / assessment indicates that the employee has achieved below fully effective results against more than half, the key performance criteria and indicators as specified in the accountability contract and performance plan
1	Unacceptable performance	Performance does not meet the standard expected for the job. The review/assessment indicates that the employee has achieved below fully effective results against almost all of the performance criteria and indicators as specified in the PA and Performance Plan. The employee has failed to demonstrate the commitment or

	ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.
